Project Report on "Role of SHG in Microfinance"

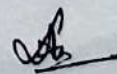

The project for BA 1st semester students under the Skill Enhancement Course paper "Microfinance and Self-Help Group Management" aims to explore the crucial role of SHGs in promoting microfinance and socio-economic development. Self-Help Groups (SHGs) are small, community-based groups formed by individuals, particularly from rural areas, to pool savings and provide financial support to members. These groups serve as intermediaries between formal financial institutions and underserved populations, ensuring better access to credit and financial services.

Through this project, students are expected to analyze how SHGs function as key players in microfinance. The focus is on understanding how SHGs empower their members by facilitating loans for income-generating activities, improving savings habits, and enhancing financial literacy. Special emphasis is placed on the role of women-led SHGs in fostering entrepreneurship, reducing poverty, and achieving financial independence.

Students will examine case studies, explore government initiatives like the SHG-Bank Linkage Programme by NABARD, and evaluate the impact of SHGs on rural development and financial inclusion. This project encourages students to recognize the collective strength of SHGs in building sustainable livelihoods and their contribution to the economic and social upliftment of marginalized communities.

students.

- 15.2 The following scale of grading system shall be applied to indicate the performances of students in terms of letter grade and grade points as given below:

Letter Grade with meaning		Grade Point
O	Outstanding	10 (Marks securing 90% and above)
A+	Excellent	9 (Marks securing 80%-90%)
A	Very Good	8 (Marks securing 70% -80%)
B+	Good	7 (Marks securing 60% -70%)
B	Above Average	6 (Marks securing 50% -60%)
C	Average	5 (Marks securing 40% - 50%)
P	Pass	4 (Marks securing 30%-40%)

*Exclusive Class Interval technique shall be followed in calculation of Grade Point.

- 15.3 Computation of SGPA and CGPA: The procedure to compute the SGPA and CGPA are given below

- (i) The SGPA is the ratio of the sum of the products of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits off all the courses undergone by a student.

$$SGPA (S_i) = \frac{\sum C_i G_i}{\sum C_i}$$

Where C_i is the number of credit of the i th course and G_i is the grade point scored by the student in the i th course.

Example for computation of SGPA

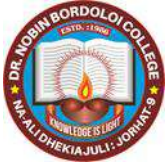

Semester	Course	Credit	Letter Grade	Grade Point	Credit Point (Credit X Grade)
I	Major (Core)	4	A	8	4X8=32

Semester I	Semester II	Semester III	Semester IV	Semester V	Semester VI
Credit: 22	Credit: 22	Credit: 22	Credit: 22	Credit: 22	Credit: 22
